Profile

Aspiring consumer technology entrepreneur and Business Artificial Intelligence Systems student who enjoys turning consumer problems into scalable products. Experience spans founding an online business, building digital products, and driving growth and operations across TikTok Shop, Shopee, foodpanda, and an overseas startup. Brings together creator commerce and marketplace experience with product development, data analytics, and workflow automation, with the goal of building and scaling technology-enabled consumer ventures.

Education

NATIONAL UNIVERSITY OF SINGAPORE

Bachelor of Computing in Business Artificial Intelligence Systems | Aug 2025 – May 2029 (expected)

- Global Merit Scholarship
- Product Management Track: Product Strategy, Data Analytics, and Digital Platforms

NGEE ANN POLYTECHNIC

Diploma in Business Studies (Entrepreneurship Track) | Apr 2022- May 2025

- Cumulative GPA: 4.00/4.00, Valedictorian of School
- Ngee Ann Polytechnic Scholarship
- Relevant Modules: Makings of a Business, Business Models & Strategies, Startup Finance

Employment

TIKTOK SHOP

Top Creator and MCN Projects Intern | August 2026 – November 2026 (expected)

- Drove e-commerce growth initiatives across TikTok Shop's top creator and MCN ecosystem, supporting livestream and video commerce through creator-brand matching, affiliate activations, and campaign execution.
- Built automation tools and internal apps to streamline creator outreach and operations, reducing 4+ hours of manual work to ~5 minutes.
- Analysed top creators' performance to uncover revenue opportunities, then developed and executed campaigns, brand collaborations, and livestream strategies to drive growth.

SHOPEE

Business Development Intern | May 2026 – July 2026

- Built a faster competitor-intelligence workflow with BI, reducing analysis time 83% (5h → 1h) and translating marketplace data into growth opportunities.
- Turned insights into action across livestream, affiliate and campaign initiatives, working cross-functionally with sellers and internal teams.

FOODPANDA

Retail Media and Partnerships Intern | April 2025 – August 2025

- Managed US\$1M+ multi-market bank-partnership campaigns, coordinating brands, designers and agencies across in-app and social channels.
- Designed and implemented an Asana project management workflow, improving campaign visibility, stakeholder accountability, and execution efficiency by 30%+.

HOLICAY

Marketing and Partnerships Intern | September 2024 – February 2025

- Joined an early- startup in Ho Chi Minh City, driving 2× user growth through creator and influencer-led content strategies.
- Improved inbound leads by 20% through data-backed content optimisation and user behaviour analysis.
- Negotiated and managed partnership campaigns with influencers, contributing to a 30% increase in customer acquisition.

ROCKMY.WRLD

Founder | December 2021 – May 2022

- Founded and operated an online crystal business specializing in sourcing and selling high-quality crystals.
- Managed supplier relationships with vendors from China, Afghanistan, and Brazil to ensure consistent product quality and timely deliveries. Maintained telegram channel of over 300 members at its peak.

Co-Curricular Activities

THE SANDBOX ADVOCATES (ENTREPRENEURSHIP CLUB)

President | March 2024 – March 2025

- Led the Ngee Ann Polytechnic's flagship entrepreneurship club, scaling membership from ~180 to 270+ through targeted outreach campaigns (email marketing, SEO optimization, and peer referrals).
- Spearheaded learning journeys to companies like LinkedIn, Oracle, Carousell, and Mastercard, connecting students to industry leaders and startup ecosystems.
- Organized flagship events to raise funds for the NP Student Aid Fund while providing a platform for 50+ student entrepreneurs to test and pitch their ideas.

THE COLLECTIVE

Community Builder | December 2025 – Present

- Helping to build a community connecting student founders across campuses and startup ecosystems.
- Co-organised initiatives including the KU × NUS Founder Exchange in South Korea, Founders Across Campus, and The Collective Pitch Night, creating platforms for founders to connect, showcase and exchange ideas.

GOOGLE DEVELOPER GROUP @ NUS COMPUTING

Partnerships Associate | September 2025 – September 2026

- Led & acquired partnership engagements for a student-led Tech4Good hackathon connecting student builders with social-impact organisations.

SHEARES WEB - NATIONAL UNIVERSITY OF SINGAPORE

Developer & Project Manager | August 2025 – May 2027 (expected)

- Building digital tools for Sheares Hall residents to simplify everyday hall life for 500+ residents.
 - Manage projects from problem identification and requirements gathering to development and launch.
- Work across both development and project management, translating resident needs into practical product features.

TEDxYOUTH@NP - Ngee Ann Polytechnic

Marketing Director | May 2022 – January 2024

- Successfully directed and executed marketing strategies for the TEDxYouth talk, utilizing skills in campaign planning, content creation, and digital marketing to promote the programme effectively.
- Generated 400 sign-ups in 2 weeks.

Projects

CARTPOOL (ORBITAL) | GEMINI LEVEL

- Built a web platform that allows users to create, discover, and join group-buy listings to buy overseas items.
- Defined key user journeys for registration, browsing, group creation, item requests, and dashboard management.
- Implemented user authentication and profile-data workflows using Supabase and developed protected access for selected product features. Tested core features and managed version control and deployment using Git and Vercel.

IDEATE 2025 – ORCA-ATE | SEMI-FINALIST

- Developed AI-powered smart glasses using YOLOv8 and Raspberry Pi edge processing to detect obstacles and provide real-time audio guidance for visually impaired users.
- Named an IDEATE 2025 Semi-Finalist, pitching a scalable assistive-tech solution combining computer vision, user-centric product design, and a roadmap toward navigation and scene understanding.

GLOBAL STARTUP HACKATHON | MOST SCALABLE IDEA AWARD

- Co-developed ONZ, a social platform helping expats build friendships through shared interests, refining the concept and business model with a cross-cultural Singapore–Vietnam team.
- Won “Most Scalable Idea,” 1 of 5 awards among teams from five cities globally, after pitching the venture's market viability and growth potential to industry experts and VC investors.
